LIST OF FISH AND WILDLIFE SERVICE
INFORMATIONAL LEAFLETS ON WILDLIFE

Prepared By Clifford O. Bullard
Publications Section

The Fish and Wildlife Service issues a number of duplicated leaflets primarily for use as correspondence aids in answering questions frequently asked on wildlife subjects. These wildlife leaflets are issued in small quantities and are not intended for general distribution or for library use. Although we realize that some of these leaflets would be useful as educational aids, we do not have enough copies to supply them in quantities. Schools that have duplicating facilities are welcome to reproduce any of these for class use. As far as possible single copies will be supplied teachers or technical workers upon request accompanied by explanation of the particular need.
